[PORTFOLIO](#)

[GITHUB](#)

[LINKEDIN](#)

## SKILLS

JavaScript, React, Redux, HTML, CSS, SCSS, Ruby, Ruby on Rails, Rspec, Mongoose, MongoDB, Node.js, Express.js, SQL, SQLite3, PostgreSQL, Webpack, jQuery, Git, Heroku, AWS

## PROJECTS

**WebFlix** (Rails, ReactJS)

[live](#) | [github](#)

*Webflix is a movie streaming platform inspired by the already existing popular streaming platform Netflix.*

- Incorporated AWS S3 to implement efficient storage and retrieval of media allowing for users to have a broad selection of movies to browse and watch.
- Leveraged polymorphic association to create reference for genres, in order to search and display movies by genre.
- Implemented a unique live search feature by improving efficiency and size of API service requests effectively reducing loading time by 80% and updating displayed videos with each keystroke, creating a seamless user experience.

**TalentShare** (MERN)

[live](#) | [github](#)

*Social media application for creators focused around art, photography, music, and dance. Built using MERN stack.*

- Led a team of four in design and development of the application, from backend to frontend, within a limited time constraint.
- Directed response data from API and employed event listeners and React lifecycle methods to dynamically change categorization of submissions.
- Utilized polymorphic association to create links between users' interactions and posts in order to update likes and comments .

**Dino Might** (Javascript, CSS)

[live](#) | [github](#)

*A simple JavaScript game that is similar in mechanics to Chrome Dino.*

- Developed a unique and interactive game design and UI, through the use of CSS keyframes and animations.
- Implemented precise collision logic to detect if the dinosaur object has come in contact with the dynamite object.
- Generated levels strategically and varied the speed and difficulty of the game as the game continues in order to increase replayability by keeping the game challenging and entertaining.

## EXPERIENCE

**Bartender/Barback**

*The Standard Grill, NY*

Jan 2019 - Feb 2020

- Building a rapport with regular customers in order to create a warm and hospitable environment.
- Prepare alcoholic and non-alcoholic beverages for bar and restaurant patrons while complying with all food and beverage regulations.
- Assess customers' needs and make recommendations based on customers' preferences.

**Bellman**

*Cassa Hotel NY*

Oct 2018 - Dec 2019

- Escorting guests to their destination while attentively explaining amenities and assisting with locating restaurants and events.
- Reserving cab services for departing guests as well as storing luggage safely in designated storage facilities.
- Maintaining a welcoming and hospitable environment for guests in order to ensure maximum customer satisfaction.

## EDUCATION

**Web Development** - App Academy

Fall 2020

*Immersive software development course with a < 3% acceptance rate and a focus on full-stack web development, which entailed 1000+ hours of coding.*

**Computer Science** - BMCC

Spring 2019 - Present
